The RMG Sustainability Council Announces Appointment of George Faller as Chief Safety Officer

Dhaka, June 13, 2022: The RMG Sustainability Council (RSC) announced the appointment of Mr George Faller as the Chief Safety Officer (CSO). Mr Faller is a Chartered Structural and Fire Safety Engineer with 40-years' experience from managing teams responsible for a wide range of technical services globally. George's appointment as CSO is effective from June 1, 2022.

The RSC Board of Directors (BoD) welcomed the new CSO onboard and said, *"We are delighted to have George Faller to lead the RSC's Engineering teams through the next phase of its workplace safety programmes designed for the RMG factories. His expertise will be invaluable as the RSC continues to grow and cement its position as the world-class industrial safety programme specialist within Bangladesh, and beyond"*.

As the Chief Safety Officer, George will employ his effort to continue to train, develop, deploy, and supervise the workplace safety programme in RMG factories that supply the RSC affiliated Brands.

Before joining the RSC, he worked with International Labour Organisation (ILO) in Bangladesh as Chief Technical Advisor on their programme aimed at improving safety in industry via RMG factory assessments and remediation, labour inspection reform, promotion of OSH nationally and other advisory services to factories.

The RSC is an unprecedented initiative to carry forward the significant accomplishments made on workplace safety in Bangladesh. The RSC conducts structural, electrical, fire and boiler safety inspections, supports and monitors remediation, conducts safety training, and operates an independent safety & health complaints mechanism available to workers in RMG factories in Bangladesh.

(Ends)
